EDUCATION

Bachelor of Science in Computer Science, Minor in Business Administration,

Rochester Institute of Technology

Presidential Scholar | Residential Scholar

Dean's List: Fall 2024 – Spring 2026

GPA: 3.99

Exp. 12/2027 or 05/2028

Rochester, NY

SKILLS

Languages/Frameworks

Java, JavaScript, TypeScript, Python, SQL, C, ReactJS, AngularJS, C#, PostgreSQL, Java Spring Boot, Rust, PyTorch, OpenCV

Tools

Visual Studio Code, IntelliJ IDEA, DataGrip, GitHub, Microsoft Excel, Git, Linux, Neovim, Godot, GitHub Actions

PROFESSIONAL EXPERIENCE

Software Engineer Intern, Liberty Mutual Insurance

- Automating Dependabot security remediation via **GitHub Actions** workflows that run security checks, open fix PRs, and auto-approve and merge on success
- Collaborating with the USRM Doc Solutions team in an Agile environment to develop internal software

05/2026 – Present

Portsmouth, NH

Theory Tutor, Rochester Institute of Technology

- Tutored 10+ students weekly on core Computer Science concepts, including Big O analysis and recursion
- Guided students through technical whiteboarding sessions for complex algorithms
- Simplified abstract algorithms into visual diagrams and pseudocode to help students bridge the gap between theory and code

02/2026 – 05/2026

Rochester, NY

Swim Instructor, Souderton Area High School

- Trained 100+ swimmers, ages 4-12, with diverse skill levels, providing personalized coaching
- Collaborated with a team of 3 instructors to enhance and optimize lesson structure and planning

07/2021 – 05/2024

Souderton, PA

PROJECTS

PacQuack (Godot | C#), Personal Project

- Developed a Pacman-inspired game with a duck theme for the Quackbox gaming console
- Programmed **C#** scripts to control Ghost AI behavior and Pacman movement
- Showcased the game at the Imagine RIT festival, attracting 100+ players

09/2024 – 04/2025

Sports IQ Showdown (HTML | JavaScript | CSS | Python | Flask | MongoDB), BrickHacks Hackathon

- Designed a real-time trivia web application, integrating a **trivia API** to generate dynamic questions
- Implemented a scoring system that evaluates users based on accuracy and response time
- Built a leaderboard system with a **Flask API** to store top scores in a **MongoDB** database

02/2025

Teach Me (ReactJS | Bootstrap | NodeJS | ExpressJS | SQL), Hack.COMS Hackathon

- Collaborated with 2 team members to design and develop the website
- Constructed an **ExpressJS** and **SQL** backend that communicates with a **MySQL** database to access user credentials and information

11/2024

Academic Decathlon Score Analyzer (ReactJS | NodeJS | Bootstrap), HackPSU Hackathon

- Developed a **React** web app to process and analyze Academic Decathlon scores from CSV files, converting a 2-hour manual scoring process to a 5-minute automated analysis
- Implemented sortable ranking tables, medal winner breakdowns, and a student comparison feature

10/2024

BetterTwit (HTML | JavaScript | CSS | Bootstrap | Python | SQL | AWS), Personal Project

- Designed a social media web application inspired by Twitter, featuring user profiles and posts
- Maintained an **AWS EC2** instance with 99.9% uptime to host the social media web application
- Implemented a **Python** and **SQL** backend, utilizing **AWS RDS** for **MySQL** to store over 25 users' data

05/2024 – 06/2024

ORGANIZATIONS

Computing Organization for Multicultural Students (COMS), Active Member, Academic Mentor

- Mentored 10+ underclassmen on academic planning, helping them navigate rigorous course loads and balance technical projects
- Conducted weekly 1-on-1 meetings with mentees to provide technical guidance and academic support

08/2024 – Present

Tennis Club, Active Member

08/2024 – Present
