Rahul Hegde

Philadelphia, PA | rgh9883@rit.edu | rgh9883 | rahulghegde | rahu1.dev

EDUCATION

Bachelor of Science in Computer Science, Minor in Business Administration, 12/2027
Rochester Institute of Technology Rochester, NY
Presidential Scholar | Residential Scholar
Dean's List: Fall 2024 – Spring 2026
GPA: 3.99

SKILLS

Languages/Frameworks
Java, JavaScript, TypeScript, Python, SQL, C, ReactJS, AngularJS, C#, PostgreSQL, Java Spring Boot, Rust, PyTorch, OpenCV

Tools
Visual Studio Code, IntelliJ IDEA, DataGrip, GitHub, Microsoft Excel, Power BI, Git, Linux, Neovim, AWS, Godot, Figma

PROFESSIONAL EXPERIENCE

Data Analyst Intern, *Johnson & Johnson (via EnQubes)* 08/2026 – Present
Titusville, NJ
- Supporting Johnson & Johnson's IM Transcend enterprise transformation program as a cross-functional data analyst across quality, logistics, and trade
- Developing a **Microsoft Power Apps** tool integrating **Power BI** and **Power Automate** to support dynamic, scenario-based effort estimation and planning

Software Engineer Intern, *Liberty Mutual Insurance* 05/2026 – 07/2026
Portsmouth, NH
- Automated Dependabot security remediation via **GitHub Actions** workflows that run security checks, open fix PRs, and auto-approve and merge on success
- Published custom workflows to company wide workflows repository
- Implemented **Java Spring Boot** logic to delete unnecessary database records reducing query times by 95%

Theory Tutor, *Rochester Institute of Technology* 02/2026 – 05/2026
Rochester, NY
- Tutored 10+ students weekly on core Computer Science concepts, including Big O analysis and recursion
- Guided students through technical whiteboarding sessions for complex algorithms
- Simplified abstract algorithms into visual diagrams and pseudocode to help students bridge the gap between theory and code

PROJECTS

Line Shift (Python | FastAPI | scikit-learn | React | Supabase), *Personal Project* 07/2026 – Present
- Building a sports betting analytics app that trains a **scikit-learn** win-probability model on MLB data.
- Engineering a resilient data pipeline, adding retry/backoff logic and streaming writes to survive upstream API and network failures.

Quiz Race (React | Firebase | Tailwind CSS), *Hack.COMS 2025 Hackathon* 11/2025
- Led a team of 4 developers in creating an AI powered multiplayer quiz game to help students study
- Implemented **Firebase** for custom-token authentication and real-time data sync, enabling multiple players to join a lobby and race through the same quiz session
- Integrated the **OpenRouter API** with **Google Gemini** to transform uploaded material into question sets

PacQuack (Godot | C#), *Personal Project* 09/2024 – 04/2025
- Developed a Pacman-inspired game with a duck theme for the Quackbox gaming console
- Programmed **C#** scripts to control Ghost AI behavior and Pacman movement
- Showcased the game at the Imagine RIT festival, attracting 100+ players

Sports IQ Showdown (HTML | JavaScript | CSS | Python | Flask | MongoDB), *BrickHacks 11 Hackathon* 02/2025
- Designed a real-time trivia web application, integrating a **trivia API** to generate dynamic questions
- Implemented a scoring system that evaluates users based on accuracy and response time
- Built a leaderboard system with a **Flask API** to store top scores in a **MongoDB** database

ORGANIZATIONS

Computing Organization for Multicultural Students (COMS), 08/2024 – Present
Academic Mentor, Tech Projects Committee Chair
- Mentored 10+ underclassmen on academic planning, helping them navigate rigorous course loads and balance technical projects
- Conducted weekly 1-on-1 meetings with mentees to provide technical guidance and academic support

Tennis Club, *Active Member* 08/2024 – Present
